

XLIFF 2.0 the Easy Way: The Okapi XLIFF Toolkit

FEISGILTT Dublin June 2014

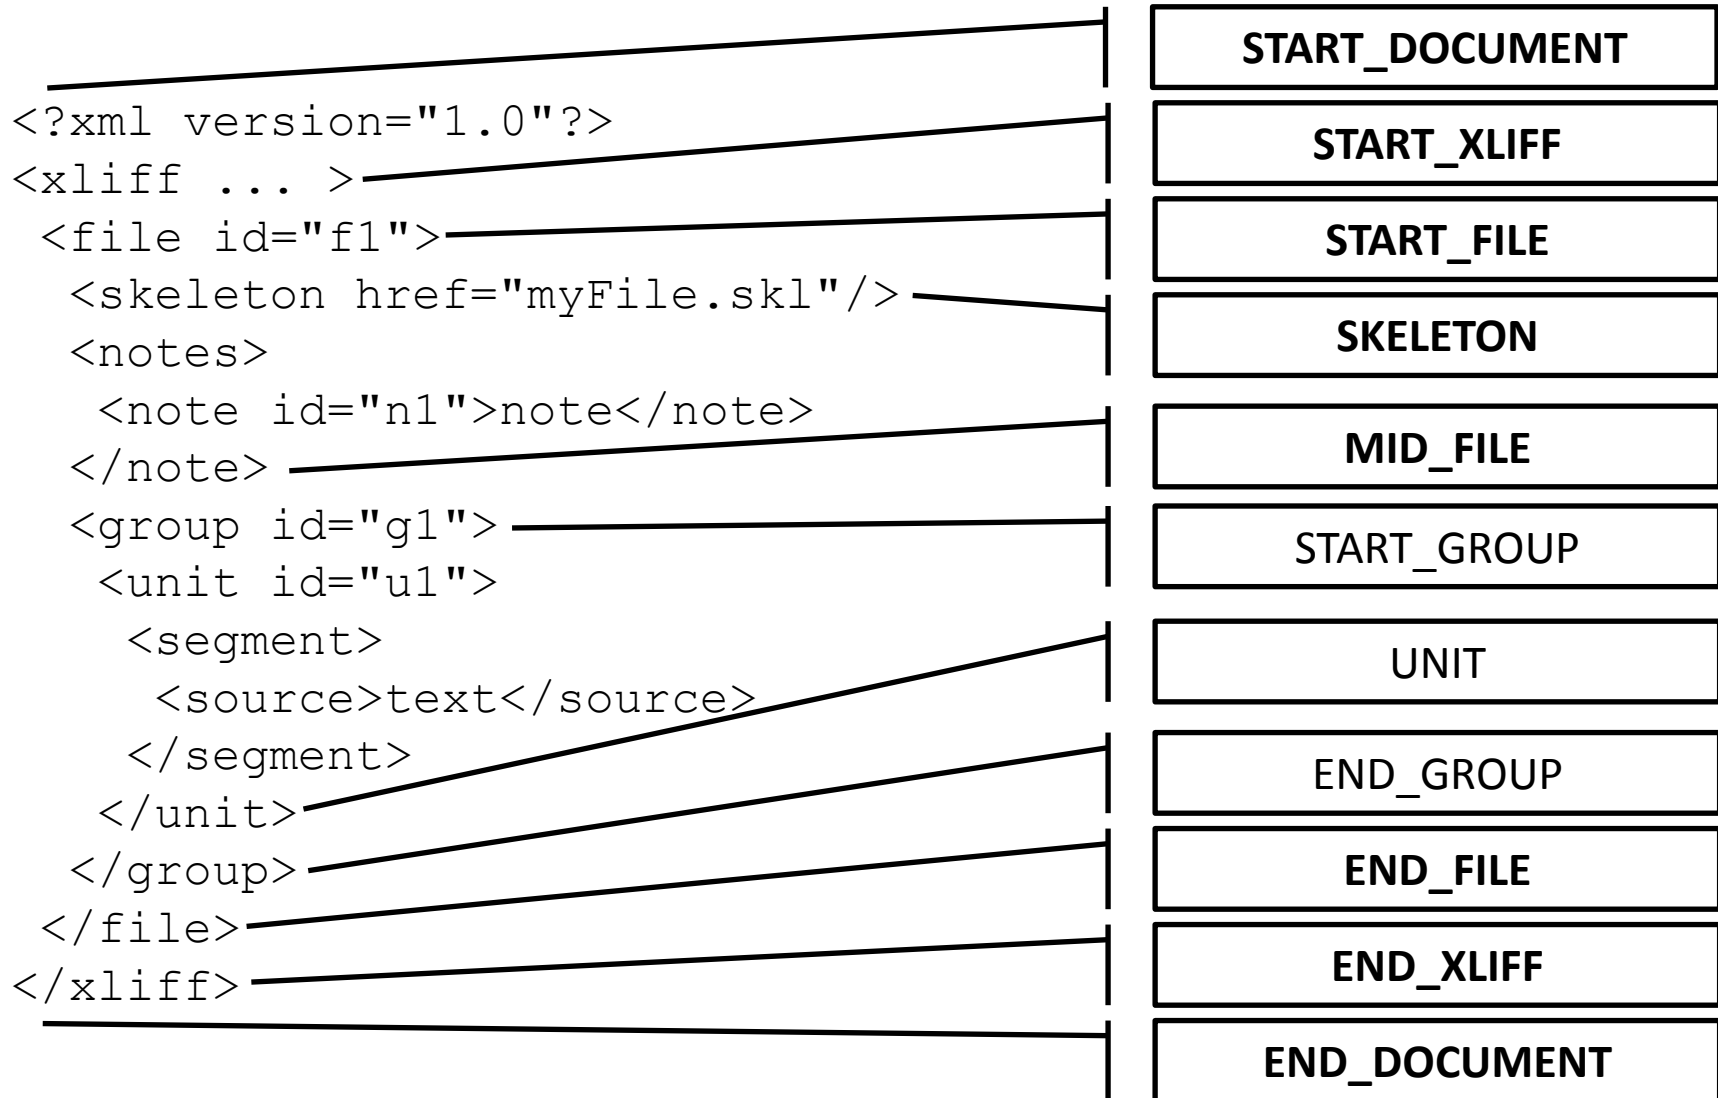

Yves Savourel

ENLASO Corporation

In a few words

- Goal: Facilitate creating, reading, manipulating and writing of XLIFF 2.0 files.
- Part of the **Okapi Framework** projects:
Open-source (LGPL), free, cross-platform (Java 1.7 or later)
- Implements: the Core, the Translation Candidates module and the Glossary module
- Allows modules/extensions manipulation too

Event-driven reader/writer
